

The Light System (TLS)

Linguistics

This document contains the four sets of linguistics integrated into The Light System (TLS) technology, each written with specific intentions to promote spiritual awareness, conscious expansion, and intentional healing on all levels. The purpose of these linguistics is to use targeted affirmations and intentional words to create an energetic environment for the body, mind, and spirit to synchronize with. This practice draws upon Dr. Masaru Emoto's famous water experiments, which demonstrated that positive words and affirmations can restructure the molecular formation of water. Since the human body is primarily water, these linguistics support energetic flow and prevent energetic dis-ease, which often manifests as physical ailments.

While the linguistics presented here are written in a specific order, their sequence will differ when TLS users convert between the Metamatrix font and the English font (F11 on your keyboard to switch to English / F12 on your keyboard to return to Metamatrix). This shift is due to TLS's unique intentionality function. Unlike any other technology in the world, this function causes the mathematical generators in the code to re-orient the words according to the user's intentionality, resulting in a more targeted and personalized approach to self-healing and energetic alignment.

Each set of linguistics carries a distinct intention. For example:

1. **108 Origins Restoration:** Focused on tapping into the singularity of the "All That Is", providing greater access to the causal plane.
2. **Christian Bible Verses** (*requested by Dr. Chris Kaufmann*): Biblical verses presented in a unique way to uplift and empower.
3. **World Peace & Harmony Linguistics** (written by Carol Joyce): Inspired by Maharishi Goi, who trained over 40,000 transcendental meditation teachers, these words capture the vibration of world peace and harmony from the perspective of Maharishi Goi.
4. **ZYTO:** Written with intentional alignment to ZYTO technology, focusing on health, clarity, and balance.

Users are encouraged to explore whichever linguistics resonate most deeply with them, while leveraging the intentionality function to transcend the words themselves and connect with higher causal planes for profound energetic transformation. It is also important to note that the linguistics are just one piece of a much larger equation in terms of how the TLS technology works. For those who wish to go deeper, we highly encourage reading the full TLS Educational Manual, which dives into the greater mechanics and applications of this extraordinary system. The manual can be found at: www.TheLightSystems.com.

May these words and frequencies guide you closer to alignment, wholeness, and the infinite light within.

Christian Bible Verses Linguistics

Father, in the name of the Lord Jesus Christ, thank You for repairing any and all damage that may have been done to me and those in my prayer by any and every attack, energy, or weapon formed or employed against us by the kingdom of darkness. I thank You, God, that NO WEAPON formed against us shall prosper. Thank You, Father, that where sin abounds, grace does MUCH MORE abound. And because You are for us, NO ONE can be against us. NO ONE can separate us from Your love. And You have not given us a spirit of fear, but of power, love, and a sound mind.

Heavenly Father, I thank You that according to Your word, we, Your people, have been translated out of the kingdom of darkness into the Kingdom of Jesus Christ. Thank You, Father God, that You are the Lord, our Healer. Heavenly Father, I praise You and thank You for the benefits and blessings that You load us with daily, and for surrounding us with songs of deliverance. Thank You that we are new creations in Jesus Christ, that old things have passed away, and all things have become new.

I thank You, God, that You are our shield, our glory, and the Lifter of our heads. Thank You that You ride as King of the flood. Thank You for surrounding us with favor as with a shield, and with songs of deliverance. We are no longer subject to the beggarly elements.

Thank You for arising as Yeshua HaMashiach with healing in Your wings, touching and transforming every cell in our bodies and the Divine DNA download, with its flawless replication, evaporating and eliminating all poisons and toxins in us, thereby nullifying their effect from our entire beings. Destroy, by Your glory and power, every engineered or natural free radical, pathogen, prion, and parasite, making us every whit whole according to Your original Divine Design. For by the stripes of Jesus and the power of Your Word, we are healed. Thank You for reversing all injury done to our physical and energetic bodies, our spirits, our souls, our lives, our finances, our families, our friends, our testimonies, our relationships, our churches, our nations, and our destinies, in Jesus' mighty name, so that we are even better than before.

Thank You, Father, that You have made us more than conquerors through Jesus Christ. For we are seated with Christ in heavenly places, and Christ in us is SO MUCH greater than he who is in the world. Thank You for bearing us up above the waves of the floods of ungodliness and evil, just as You did for Noah and his family. Because You are doing a new thing in the earth, no purpose of Yours can be thwarted. No purpose of Yours in the

earth can be thwarted. Thank You that the woman is nourished in the wilderness for a season, and that the earth helps the woman by swallowing the flood.

Father, in the name of the Lord Jesus Christ, thank You for repairing any and all damage that may have been done to me and those in my prayer by any and every attack, energy, or weapon formed or employed against us by the kingdom of darkness. I thank You, God, that NO WEAPON formed against us shall prosper. Thank You, Father, that where sin abounds, grace does MUCH MORE abound. And because You are for us, NO ONE can be against us. NO ONE can separate us from Your love. And You have not given us a spirit of fear, but of power, love, and a sound mind.

CLOSING STATEMENT

As you complete your journey through these linguistics, remember that their power extends far beyond the words themselves. Each affirmation is a frequency, each phrase a key designed to attune your mind, body, and spirit with the higher resonance of truth, love, and wholeness. These words are not simply read - they are experienced. They act as living codes that gently recalibrate your inner being, inviting harmony where there was discord, clarity where there was confusion, and light where there was shadow.

By engaging with these linguistics, you are participating in an ancient and sacred principle: that thought and intention shape reality. You are reminded that the human body, composed largely of water, responds profoundly to vibration and word - just as Dr. Masaru Emoto's pioneering work revealed. When spoken, contemplated, or even silently acknowledged, these affirmations ripple through the subtle fields of your existence, aligning you to higher pathways of health, vitality, and expanded awareness.

Know that every time you return to these words, you are not repeating an exercise but deepening an energetic dialogue between yourself and the greater consciousness of the All. With each encounter, the resonance grows stronger, your field becomes clearer, and your potential to influence both your inner world and the collective field of humanity expands.

Yet, the linguistics are but one piece of a much greater equation. They form a vital strand in the larger tapestry of TLS technology — a system designed to meet the human spirit at its highest calling. To truly understand the depth of this work, and to learn how the intentionality function and the greater architecture of TLS operates, we encourage you to explore the complete TLS Educational Manual, available at **www.TheLightSystems.com**

May these words inspire you to live in greater alignment with your highest truth. May they remind you that you are a co-creator of harmony, a vessel of infinite love, and an emanation of the Divine Light that animates all things. Carry them with you as living companions and let them guide you into deeper remembrance of who you truly are.
